Has been banned from your server, with no reasoning, i know him and he doesnt cheat, so i was hoping you could please un-ban him or even give us a better reason for the ban.

THanks for your Time

Thank you for taking the time to come on for your m8.

He was banned for standing in jail on surf_10x_final and knifing everyone who appeared before they had a chance to move, racking up a stupid score (close to 100 kills when I joined) and peeing off the other players on the server whilst ignoring requests to stop being a complete nuub.

I am willing to remove the ban if a repeat doesn't occur.

"Sorry, i was leveling up on the afk players and suddenly got banned, i don't recall being told to stop once, maybe its because i didn't have sound last week It won't happen again sorry"
