I'm pretty sure the ban wont be lifted as permanent ban is pretty hard to accomplish without using cheats. there is no one else u can blame than urself for this

and also, Pooky is a well respected admin and has done so much with the wcs server, so im pretty sure ppl are going to take his side.

I joined the server that day because i got people telling me you were breaking the rules and weren't listening to other players, which were kindly requestiong you'd stop using wards in spawns.

When i joined a saw you had 9 / 11 votekicks against you (must ring a bell ??) and people typing to you in chat & over mic that you should stop.

despite all this, i'll unban you, we're giving you a second chance.

Just play by the rules, so that everyone can just have a good time on the server.

Pooky
