Demo: www.megaupload.com/?d=9SFEB32T

Player: Ashen (playing as Nehsa now, original.. He quit playing for a while when everyone suspected him having a wh. Now he's back with that new name.)

Steam ID: STEAM_0:1:19338874 www.twkgaming.com/histats/histats.php?mo...fo&player=126038

Reason: He can see invis people in addition to the normal 'wallhacking'. See youtube videos about material hacking. Why, I think, he can see the invis people would be the colored t and ct meshes and they wouldn't get affected by alpha. for example:

Well you do have the authority to perm ban.. You wouldn't be an admin if you didn't now would you. Are you waiting for a permission? Don't think we're in the kindergarten (or kansas) anymore.

I'm not sure i like your tone there mate. Please treat people with respect on our forums/servers and don't patronise

our admins. In this community all of the admins discuss every ban request and analyse the evidence as a team. Thank you for giving us this ban request, but please let us deal with this in our own way.

If I was 100% sure he was a cheater, I wouldn't make a thread about him where people can discuss.
