

The reason I and most people want ChaoS banned..

Well, there is a lot of reasons but I'm only going to list a few:

The guy is a complete selfish bastard..

The guy changed his name to the same name as valuable players and pissed everyone off on the server to get the person bad reputation

He was taking the piss and raging at iRON saying and I QUOTE! "Your nan is dead and I pissed in her ashes" then repeatedly was saying "your nan is fucking dead, dead, dead, and I'm fucking happy about it";

after I told him to stop he carried on saying to me "hey, hey, what you gonna fucking do about it you dick";

then after all this M3ntoz finally joins and kicks him from the server, then he changes his username to "iRON's dead nan" and repeatedly joins and disconnects from the server..

This in my opinion should be ban-able, some of the things that he said would upset and piss me off so much.. the guy evidently is a massive cock and needs dealing with, for proof of his name check his HLStats out..

I'll even upload screen shots and a demo of all of this..
