

Well, I think this is the right forum for this

Posted by 117derek - 04 Jun 2013 21:16

I don't know if some of you remember me. If you do, you probably remember me for when I was banned. I x-rayed, and was caught for the second time, and banned permanently. I fought and fought to tell everybody that I didn't x-ray again. I was trying to say "What kind of idiot would x-ray again after being given a second chance?" Well, I was that idiot. I was an idiot spamming the forums and the chat, trying to get back on the server. It was all a lie, as probably most of you could tell.

Anyway, I think I have matured quite a bit since then. In a week, I will be graduating from the eighth grade, and I am expected to give a speech to the whole crowd telling how I have matured. So hopefully I have matured.

Even though I was an idiot back then, and probably still a bit of an idiot, I ask for your forgiveness. I would like to be accepted back onto the server with my current account. I swear on [Insert respected family member's name here]'s life that I will not x-ray on TWK Gaming again.

Please, please take the time to at least consider this. You can take all my MCMMO skills, all of my inventory, everything I have on that server. I just want another (third) chance to play Minecraft with this community. I still do understand if you say no.

Thank you for reading this far, and possibly considering this. Let the hate begin.

Why isn't this showing up in the recent posts section of the home page?

Well, from the first and second time, you still haven't learned not to double post -_-

Anyway, since you were caught a second time, there's no way I'd give you another chance, but it's not just up to me

I think this is the 3rd or 4th time you have come on saying you have grown up or matured for whatever reason; For all i know you could have changed ad could be a nice guy, BUT you were given a seconded chance and you lost it. So in my opinion no, u can't get unbanned.

Okay, thanks for reading it anyway. Guess I'll keep looking for a new server.
