

CoD:BOps Modding?

Posted by Demoniac - 15 Dec 2010 17:31

Have anyone heard about this? I read about it somewhere but wasn't satisfied cuz nothing was really said...

HAve anyone figured out how to create parties and play with ur friends? on the same team, all the time (now it just happens that me and mates end up on the same team, sometimes...).

I'll add the server to favourites 😊
