Why I shouldn't be banned. (He wants me to make a post for this for some reason)

I R PRO!

'Nuff said

No but really, I grieved you because we're in war, I grieved carb because he's a fag, I grieved Paedo because he tried to attack my base like a month ago, I grieved garner because he was part of this whole group. There, And why I Shouldn't be banned, Is because you're a bit mad that I just grieved you, well that isn't why I shouldn't be banned. But I shouldn't because I am listening to you right now and am making a post.
