

Server Reset

Posted by nuckyi - 18 Feb 2013 02:08

I read some stuff the other day about resetting the server. Is this going to happen and if so when. Will we be able to get some stuff moved over or will it be a fresh start.

Ender chests and inventories should be reset. In one ender chest you can pretty much put everything you need/valuables in it. If we do get to keep items, I agree with Chifilly that it should only be ender chests, not inventories.

Whether or not we need a reset isn't in question here, we're having one.

I feel that it should be a fresh start. We'll still have our mcmmo scores, so that's something that can be used to our advantage for a new beginning.

+1 for punching trees.

I'd say let everybody bring 3 items over. Let them only have 3 items in their inventory before the reset, and if they have more, delete everything. No enderchests. I really don't know how much work this would take, but it's just an idea...

Not like you'll listen to me or anything... I wouldn't.

I thought so... I kinda realized that after the fact. You'd have to check the inventories of every single player on the server...

Besides you being banned, that won't be possible, as fiddling with each inv can be kind of piss to do.. afterall, it's only around 8000 users data ...

I'm inclined to clean everything and give a starter kit (similar to what already happens).

This means, resetting invs, factions, money, everything except mcmmo levels (then again.. why not)

About losing users... well, we've lost lots of players, and gained new ones over resets, we are kinda used to it.

I know it's kinda upsetting when peoples builds get reset, but I think McMMO stats is treading a bit too far in my opinion, because it is a HUGE grind and I can guarantee everyone will be pissed if they get reset (including me). And obviously, if you delete the alternative world (specifically the Challenges world) I will hunt you down and murder you with a rusty spoon! xD

Only issue I would have is that I spent quite awhile building my lovely new house, Still moving into it, then I find out that the build will be reset.. Other than that, Diams etc wont be too hard to get back, Its As long as my mcmmo stats dont die..
