

Lost stuff

Posted by MrBombe7 - 25 Apr 2013 23:30

Because of some /vanished Admin (i think it was Voodoo -.-) i fell and lost a complete set of Godstuff including silktouch-godpick(30%dura) regular godpick(50% dura) god-combataxe(99% dura) godshovel(25% dura) smite-godsword(99% dura) godbow(40% dura without flame)[all tools/weapons with unbreak3] and a full unenchanted diamond armor set -.-.

It would be nice if you guys would give me my stuff back.

i dont think an admin killed you. In truth i think they are all asleep and i just logged on and saw no one online but a guest.

Could you be more specific about what happened rather then accusing an admin of causing your death. Something along the lines of a rough time, what actually happened etc.

That being said, i will look into the matter tomorrow for you. No doubt you will be on, so as soon as i find out, ill let you know.
