

Update 1.6.4

Posted by Tunes - 20 Sep 2013 19:36

Well, the server is up with 1.6.4, but Factions doesn't load, so it's whitelisted atm and will be until Factions gets updated.

Cheers

When do you think TWK will be up and running again?

Ok, it's up and running "all" updated (at least, what matters)

Whitelist is now off

Have fun!

Cheers

Well i think the current famous mods like [Optifine HD](#) [TooManyItems](#) along with [MCpatcher HD](#) [Minecraft Forge API](#) are not releasing because they are waiting for the main update of Minecraft 1.7. Hope for the best.

This is not about client mods, but about server plugins. Only thing I do need for mc is xray (admins do need xray) and zombie mod for flying.
