

Herobrine Chimes (the 2nd topic)

Posted by gracielynn - 21 Feb 2013 23:48

It isn't Wyatt. We both heard the chimes. He was freaking out. Wyatt was even offline when we discovered new things. And Herobrine does exist. Random lava falls spawning everywhere and Wyatt fell in it a lot of times so I really doubt it was Wyatt. So chif quit being a doubter.
