Look i was wrong to take it that far but he was cursing at me and acused me of stealing his stuff.all i was trying to do was give him some stuff that he lost back.I usually don't get this angry and am not the type of person to continue such behavior

this will never happen again and i will us /ignore to avoid Immininggoaway in the future.

Right, the issue has been resolved. Kizikilla is writing a public apology to ImMiningGoAway (aka. Martin) in the forums, and he has a 24 hour mute.

I was not "Cursing" at Kizikilla. If you check the chat logs you will see that he is lying. I am not the kind of player to be swearing at anyone. The effort he is going through to try not to get in trouble is ridiculous. There is absolutely no proof that i was "Cursing" at Kisikilla.

(/ignore) I have tried that command before and the console has told me that i do not have permission to use that command.
