

I got kicked out of my faction due to a bug

I was part of a faction of three with my two friends yesterday and for some reason when I logged on today I wasn't a part of it anymore. I know that they wouldn't kick me out without a reason.

also I got curious and wondered if i was having a problem being in factions at all so I made a temporary faction (not a good idea) and lost 1000 dollars.

i'm wondering if someone could explain why i'm suddenly out of the faction, and maybe reset my account completely?

Eurgh, this whole power system is awful, and we hate it, and to be honest it wouldn't surprise me if that's why the server's had hardly anyone on it. If it were up to me I'd go back to the old power system
