

Site problems and stuff

Posted by Tunes - 19 Aug 2013 17:35

Well, I think most problems are fixed, the site has been hacked several times over the last months (around 2 to 10 times per day... RLY)

So, if someone still finds a bug here and there, please reply on this thread so I can take a look at it.

Minecraft server problems are still under dev as my time allows.. sorry folks.. IRL does take its toll.

Cheers!
