It's that time again.

Thanks to Vogon for finding such a great image for us to desecrate 🙄

I've attached a gif and a png version of the same image - both are transparent.

The objective, as always, is simply to find something amusing to superimpose it onto 🙄

Btw, there is still something in the background of that png picture, so I had to "Paint" it away.

He supports the queers in the gayparade! 🙄

As he is in Spain now, think he will start practising flamenco?
